📄 Tonysha Siva

Professional Summary

Motivated and detail-oriented Information Technology undergraduate with a strong academic foundation and practical exposure to software development, databases, and emerging technologies. Hands-on experience gained through internships and academic projects in mobile app development and AI-based solutions. Quick learner with strong problem-solving abilities, teamwork skills, and a keen interest in building efficient, secure, and user-friendly applications. Seeking an entry-level opportunity to apply technical knowledge and grow professionally in the IT industry.

Internship Experience

Mobile App Development Intern, LITZ Tech Pvt. Ltd.,

2025 | Coimbatore

- Designed, developed, and tested mobile applications for Android and iOS using Flutter, React Native, and Android Studio.
- Worked closely with UI/UX designers to implement intuitive and responsive user interfaces.
- Integrated REST APIs and implemented data storage using SQLite and Firebase.
- Debugged and optimized application performance to enhance user experience.

Education

Bachelor of Science in Information Technology,
Vivekanandha College of Arts and Sciences for Women
Current Percentage: 82.9%

2023 – 2026 | Namakkal

Higher Secondary Certificate,
St. Agnes Girls Higher Secondary School
Scored 86% with Distinction in Computer Applications.

2022 – 2023 | Theni

Secondary School Leaving Certificate,
St. Agnes Girls Higher Secondary School

2020 – 2021 | Theni

Projects

AI Phishing Detection

- Designed and developed an end-to-end AI-based phishing detection system to identify fraudulent emails and malicious URLs, focusing on improving user security and awareness.
- Performed comprehensive data collection and preprocessing, including text normalization, tokenization, removal of stop words, and feature extraction to enhance model accuracy.

AI Dream Visualization

- Designed and developed an end-to-end multi-modal AI system to transform raw text narratives into structured video visualizations, focusing on content automation.
- Performed comprehensive text analysis and prompt engineering, including scene segmentation and sequence mapping, to programmatically generate 6 thematic images

Skills

Programming Languages

Python, C, Java, R

Data, AI & Analytics

Machine Learning, Artificial Intelligence using Python, Data Analytics, Power BI

Databases

SQL, PostgreSQL, SQLite

Tools

VS Code & MS Office

Conference

Participated in the International Conference on Metaverse and Cloud Computing.

Career Objective

To secure an entry-level position in a reputable organization where I can apply my technical skills, gain hands-on industry experience, and contribute to impactful projects while continuously enhancing my knowledge and professional capabilities.

Certificates

- Python Programming – Microsoft
- HTML – Great Learning
- Privacy and Security in Online Social Media – NPTEL

Languages

- English
- Tamil
- Kannada
